ROME

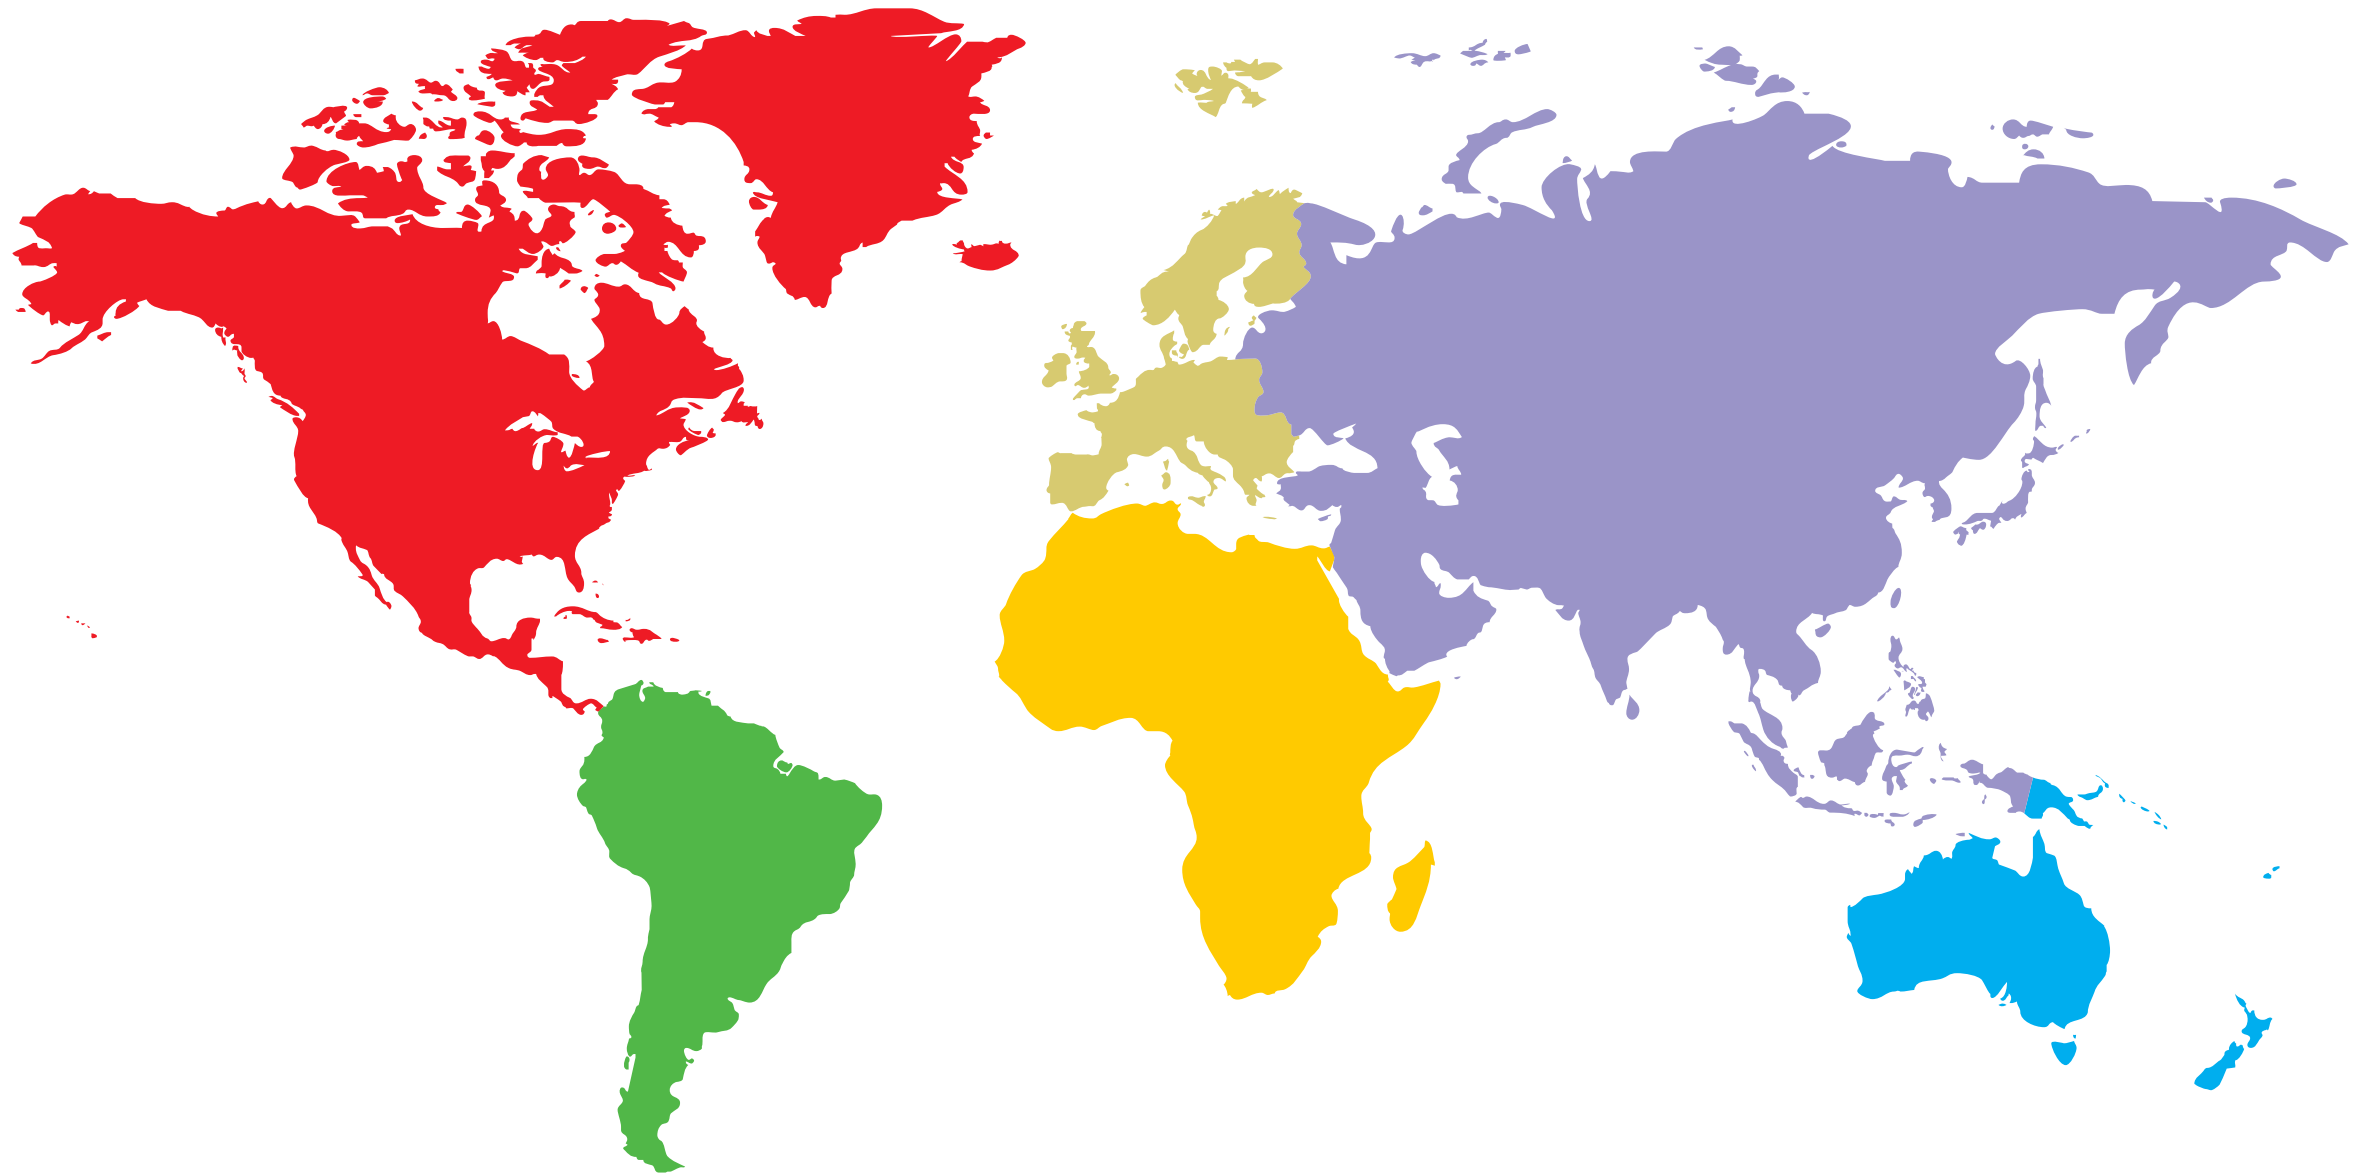

ROME — A NEW IDENTITY

THE DESIGN PROBLEM

The purpose of this document is to present the new graphic identity of Rome and ensure at the same time the correct use of the brand in any application that is required.

This manual describes the creative process that was carried out for the re-branding of Rome, as well as the meaning and justification for each of the elements and colors that integrate it. Also described are aspects related to the normativity of use of the brand: construction and protective grids, proportion, color palette, etc.
